*Total ancestries tallied is the total number of people reporting each specific ancestry first or second in their response to the ancestry question. For example, someone responding "Irish-German-Dutch" is counted in both the Irish and German ancestry groups, but the third response is not tallied. Total tallies can be greater than the total population, even though many people left this question unanswered. This is the only question for which the Census Bureau did not impute any answers for non-respondents.
**Includes only people reporting "U.S." or "American" as their sole ancestry. For example, "Irish-American" is tallied only as "Irish".
***Includes most people reporting "U.S." or "American" as their sole ancestry. For example, "Irish-American" is tallied only as "Irish".
